Organization and interaction

We will be able to inform you of the exact number of participants on February 22, 2018. We also kindly ask you to make sure that your workshop contains interactive elements and encourages the attendees to participate and contribute.

A projector and internet access will be available; a laptop will also be available in the conference room.

Some conference events will be streamed. Further details will soon be available on the conference website.

Abstract

Please send us your abstract in German **and** English (300 words each) by December 20, 2017 so we can include it in the conference program. Please create the file as a Word document and do not format your text. Please also state your current professional situation and your email address. It would be greatly appreciated if you could provide us with a recent photo of yourself.

Publication

A publication on the conference is planned. As a contributor you are invited to publish an article based on your workshop therein (between 10.000 and a maximum of 15.000 characters, excluding spaces). Further details on the publisher and formal requirements will be available on our website in early 2018.
